Summary

The QC Chemist is responsible for performing tasks associated with release testing and reviewing laboratory data. Communicating with and supporting internal & external partners of the Quality Control organization.

Location: Indianapolis, IN #LI-Onsite

Shift- 1st Thursday-Sunday

About the Role

- Provide support to peers within the Quality Assurance, Quality Control and AS&T teams.
- On-time and GMP-compliant release of dosage forms
- Support Quality Control and AS&T as a valued business partner, with a culture of safety, quality, delivery to patients, cost, compliance, and data integrity.
- Author, review and support procedures, investigations, corrective and preventive actions, change controls, complaints, and training as it relates to quality control testing.
- Ensure that QC testing is properly conducted and documented for all performed activities, with emphasis on Data Integrity. Evaluate and approve QC records as required.
- Provide oversight and monitoring of quality control KPIs and programs.
- Perform QC related validations, transfers, improvements, investigations related activities (deviations, OOS, OOE, OOT, CAPAs, trending), and Change Control systems.
- Prepare and participate in health authorities' inspections and internal audits of QC. Ensure quality control area is inspection ready.

Please note:

- **This position involves shift work which will be defined through site start up and commercialization readiness.**
- **This position involves on-call shifts, if required, when scheduled.**

Essential Requirements:

- BSc in Chemistry or relevant scientific discipline
- 3+ years of experience with HPLC in pharmaceutical industry
- Knowledge of radioisotopes preferred
- General HSE Knowledge
- GXP experience required ; knowledge of GMP Manufacturing Process Execution preferred
- Quality Control (QC) Testing and Quality Control Sampling

The pay range for this position at commencement of employment is expected to be between \$97,600 and \$146,400 per year; however, base pay offered may vary depending on multiple individualized factors, including market location, job-related knowledge, skills, and experience. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an "at-will position" and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors
