Jun 02, 2024

France

Summary

Set-up and execute the French RLT medical strategy aligned with Global corporate and Local company strategies, while leading a team of medical associates by embodying Novartis/Adacap values and behaviours

About the Role

Major Activities (Describe the 5-7 main results of the role to be achieved)

- Involvement in all aspects of medical support for the company ' s products.
- Key Opinion Leader management and maintenance of relevant relationships in the medical and scientific community on a local basis.
- Lead F-IV, IIS or any other scientific project.

- Responsible for scientific and clinical input on cross-functional sales and marketing teams.
- Definition and implementation of a local publication strategy for the oncology franchise.
- Managing a team composed of medical advisor, CRMA, MSL, including potential managers.
- Support to commercial activities, such as congresses and key events and the profiling of competitors as appropriate.
- Continuously update in-depth scientific and medical knowledge and be well informed about clinical trends and guidelines in oncology.
- Support promotional activities by reviewing and approving marketing materials to ensure compliance within the international regulatory frame.
- To ensure all MA related activities conform to the company ' s standards, regulations and compliance requirements follow good ethical practice.

Key Performance Indicators (Indicate how performance for this role will be measured)

- Internal and external leadership by embodying the company's values
- Autonomy, responsibility, and well-being of the medical team
- Medical expertise and recognition from national and international authorities and opinion leaders
- Effective collaboration with TMO teams to meet annual commitments for the number of centers and patients to recruit.
- Effective collaboration with Commercial RLT teams, Market Access, and public affairs teams to successfully execute the defined RLT strategy.
- Compliance of the entire medical team with best practices, DMOS/LEA rules, and SOPs
