

Our vision is to be a trusted leader in changing the practice of medicine. A big part of gaining this trust is being transparent – being open and clearly disclosing what we do, how we work, where we are successful. This applies across all aspects of our business around the world.

In order to allow everyone to get a better look at our business and how we operate, we publish several key pieces of information:

Novartis in Society ESG Report

We issue an annual Novartis in Society ESG Report, which consolidates the company's reporting on environmental, social and governance topics and details our progress against our targets.

Payments to Healthcare Professionals

Novartis seeks to collaborate with Healthcare Professionals and Healthcare Organizations in the interest of patients. As an industry we make payments or "transfers of value" to Healthcare Professionals and Organizations to compensate them for the time spent working with us. In several countries, we publish payments to Healthcare Professionals and Organizations in line with local laws or regulations.

Patient Organization Funding

Novartis works with many organizations that advocate for patients around the world. These organizations play a crucial role by informing and supporting patients, as well as safeguarding the rights of patients and caregivers. Each year we disclose our relationships with patient organizations online.

Environmental Impacts

We take our responsibility to protect the environment seriously. As part of that commitment, each year we disclose our submissions to the CDP on climate change and water. CDP is a not-for-profit charity that runs the global disclosure system for investors, companies, cities, states and regions to manage their environmental impacts.
