Job Description

Job Description :

20+ brands catering to 50+ disease areas! The team of Novartis specialists within Insights & Analytics are on a data and digital transformation journey, leveraging analytics to generate actionable insights for Novartis medicines impacting more than 500 million patients worldwide. The team is poised to enable easier, faster and reliable decisions for Novartis divisions across the globe.

Your responsibilities:

Your responsibilities include, but are not limited to:

- Create and deliver below customer requirements as per agreed SLAs (timeliness, accuracy, quality, etc) and drive excellent customer service
 - o Strategic 5 year forecasts for in-line / pipeline products
 - o Lifecycle management forecasts for inline / pipeline products
 - o BD&L market & product revenue forecasts
 - o Pipeline product forecasts
 - o Monthly revenue forecasts by indication for 24 months
 - o Ad-hoc Forecasting support
- Deliver services through structured project management approach with appropriate documentation and communication throughout the delivery of services
- Support in creation and maintenance of standard operating procedures (SOPs), quality checklists that will enable excellent quality outputs for all outputs within the function
- Support in developing and maintaining knowledge repositories that gathers qualitative and quantitative reports of brands, disease areas, macroeconomic trends of Novartis operating markets, etc
- Support team leaders in recruitment and on-boarding of new associates within the organization
- Participate in various knowledge sharing sessions that enables growth and improves quality of GCO Hyd deliverables across the function
- Align with all internal functional operating procedures like time tracking, KPI tracking and reporting, and other internal systems and processes. Comply to all Novartis operating procedures as per legal / IT / HR requirements

Diversity & Inclusion / EEO

Novartis is committed to building an outstanding, inclusive work environment and diverse team's representative of the patients and communities we serve.

Minimum Requirements

What you'll bring to the role:

- Fluency in English is prerequisite, while knowledge of other in-scope country languages would be an advantage
- Experience (3-4 years) in forecasting in a market research firm or pharmaceutical company or Pharma KPO
- Should have an understanding of Pharmaceutical business including its regulatory environment
- Strong analytical thinking with problem solving approach
- Should have worked in an international company with exposure to working in cross-cultural environment
- Should be customer service oriented
- Strong and proactive business results-focus, and shown ability to provide insights that increase productivity

Why consider Novartis?

799 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

Imagine what you could do at Novartis!

Commitment to Diversity & Inclusion:

Novartis embraces diversity, equal opportunity and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration, and empowers our people to unleash their full potential.
