Russian Fed.

Job Description

We are currently looking for Gene&Rare Disease Market Access Manager who will be responsible for 2 therapeutic areas: gene therapy and rare diseases.

Your responsibilities include, but not limited:

- Leading the implementation of a sustainable Patient Access strategy for gene & rare disease portfolio at a local (CPO) level. Collects and analyze data to generate insights for Patient Access submissions that jointly create value for customers, patients and Novartis.
- Leading projects to submit patient access dossiers to regulatory authority supplying high standards of operational excellence, including submission of reimbursement dossiers to the ministry of health for commercialization of gene & rare disease pipeline products
- Creating insightful reports that translate the outputs of analysis of relevant data on pricing and reimbursement strategy of Novartis and competitor products into impactful business recommendations.
- Building and leverage strong networks and relationships with key customers, key opinion leaders and individual and institutional key decision makers, to optimize the positioning and messaging of Novartis gene & rare products and facilitate the co-creation of value propositions with customers.
- Exploring competitive opportunities on the basis of potential access solutions and innovative pricing schemes
- Supporting CEE Gene key-brand Cluster team by working together with CEE access lead providing market access and HEOR functional expertise within cluster cross-functional teams to identify strategies and execute tactics to support the value of gene & rare disease pipeline, newly launched and/or marketed product(s)
- Provide market access and HEOR functional expertise and collaborate with cross-functional teams to identify strategies and execute tactics to support the value of gene & rare disease pipeline, newly launched and/or marketed product(s)

Minimum Requirements

Minimum requirements

Professional and career development opportunities (locally as well as worldwide).

Why consider Novartis?

799 million. That's how many lives our products touched. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks. And where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

We are Novartis. Join us and help reimagine medicine.
