Job Description

9.4 billion spend on Research and Development. That commitment resulted in 24 major regulatory approvals in 2019 in the US, EU, Japan and China.

We are transforming to become an agile quality organization by establishing reliable & robust Quality System for supplying innovative and life-changing to our patients.

Novartis launched new product in 2019. This role is aiming to deliver quality and safety product through end to end supply operation by ensuring the robust process and efficient working practice.

Responsibilities:

Strengthen quality governance in local CG&T supply chain

1. Ensure to implement Novartis QMS into local operation and activity comply with local regulations and Japanese customer expectations
2. Ensure that a timely and effective communication and escalation process is communicated to and followed by all personnel in the respective area
3. Support to implement robust CMO management
4. Review & approve local process
5. Set up and update Quality Agreement with CMO
6. Facilitate logistical QMS training to Novartis associates and vendors

Play key role to ensure to implement robust process and efficient working practice as QA manager which can deliver the product to patient. This activity is also to further support the expansion of business and also expand QA governance to other Novartis product.

Diversity & Inclusion / EEO

Novartis is committed to building an outstanding, inclusive work environment and diverse team's representative of the patients and communities we serve.

Minimum Requirements

3-4 years relevant experience Japanese Bachelor or equivalent in scientific area Preferable for knowledge of GDP and product supply management

Why consider Novartis?

817million. That's how many lives our products touch. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

We are Novartis. Join us and help us reimagine medicine.
