USA

### **Job Description**

769 million. That's how many lives are touched by Novartis products globally. And, while we're proud of that fact, in this world of digital and technological transformation, we must ask ourselves this: how can we continue to improve and extend even more people's lives?

Responsible for execution of maintenance, repair, & calibration of electrical equipment and instruments and commissioning activities for projects for a radioligand therapy manufacturing.

Your responsibilities include, but are not limited to:

- Prepare tools, spare parts etc. for maintenance / calibration of instruments, including pressure gauges, sensors, robotics, etc.
- Identify spare parts for maintenance and maintain pick-lists
- Obtain permits for maintenance / calibration / projects
- Execute work orders for maintenance / calibration as per method statement / procedure
- Troubleshoot electrical and instrument problems with production or facility equipment
- Supervise maintenance / calibration work as Subject Matter Expert (SME)
- Update CMMS after maintenance / calibration completion
- Document execution of calibration
- Manage stores for spare parts (good receipt, incoming inspection, delivery to work area, make parts for quick repairs and improvements)

### **Diversity & Inclusion / EEO**

*The Novartis Group of Companies are Equal Opportunity Employers and take pride in maintaining a diverse environment. We do not discriminate in recruitment, hiring, training, promotion or other employment practices for reasons of race, color, religion, gender, national origin, age, sexual orientation, gender identity or expression, marital or veteran status, disability, or any other legally protected status. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.*

### **Minimum Requirements**

Associates degree or equivalent training in mechanical, electrical or instrument technology and 3 years experience required. Experience in cGMP pharmaceutical manufacturing environment preferred.

## Why Advanced Accelerator Applications (AAA)?

Thousands of people die of cancer around the world every day. At Advanced Accelerator Applications (AAA), a Novartis company, our mission is to transform lives through radioligand therapy in nuclear medicine to fight several leading types of cancer. How will we continue to be on the cutting edge of medicine?

We believe new groundbreaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity, and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis!

### Commitment to Diversity & Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse team's representative of the patients and communities we serve.
