Job Description

+75 is the number of countries that Lean Digital Core (LDC) program will be rolled out across all units in Novartis Group affiliates

This role is can be staffed in any location worldwide; due to system limitations only one country is displayed

Your key responsibilities:

Your responsibilities include, but are not limited to:

Lead a global Business Data Team for Technical Operations and Supplier Management in covering the worldwide ERP transformation Lean Digital Core (LDC)

- Be a thought leader for how Technical R& data is mastered and used in processes across the complete enterprise
- With an enterprise mindset, design and implement data principles, data governance framework, data ownership and data operations to ensure key integration topics and dependencies are aligned across functions and programs
- Partner with the Operations & Global Drug Development Enterprise Data Owners (EDOs) team for making the data under the LDC scope across enterprise: findable, accessible, interoperable and reusable.
- Collaborate with IT to build data solutions
- Drive, shape, represent and communicate the LDC data strategy to senior partners

Minimum Requirements

What you'll bring to the role:

- 8+ years experience in life science companies
 - At least 3 years' experience in site, country or global Technical R&D roles in one or more areas: QA (e.g. SAP QM, Inspection Plans, QA info records), Manufacturing, Engineering (e.g. Assets, Equipment, functional locations), Logistics (Warehouse & Transport Management)
 - Experience in managing suppliers (third party) data
- At least 2 years of management/leadership experience, ideally in a country management role and/or management in a regional or global team.
- Experience working and leading data workstreams in large scale ERP, systems implementations and/or large scale global business transformations
 - Demonstrated people management skills and cultural transformation in a data driven attitude (motivation, leadership and development)
 - Proven data, reporting, Operations process and compliance or analytics experience possibly in a matrix style within a large, complex data landscape.

- Experience in data governance/quality and regulatory regimes.
- Experience in compliance and controls, design and execution.
- Excellent communication, collaboration skills with proven speaking, presentation and facilitation experience in internal and external environments.
- Able to leverage networks of professionals across functions and business areas.
- Understands the competing organizational needs beyond own part of business.

Desirable requirements:

- Result-driven, inclusive leader and phenomenal teammate with strong communications skills
- Curiosity, open to new and different ideas and solutions
- Inspirational leadership, Unboss attitude, providing the right amount of challenge and autonomy

You'll receive:

Competitive salary, Annual bonus, Pension scheme, Share scheme, Health insurance, 25 days annual leave, Flexible working arrangements, subsidized dining facilities, Employee recognition scheme, learning and development opportunities.

Why consider Novartis?

799 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, adventurous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to seek the world's toughest medical challenges.

Imagine what you could do at Novartis!

Commitment to Diversity & Inclusion:

Novartis embraces diversity, equal opportunity and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration, and empowers our people to unleash their full potential.
