### **Job Description**

Novartis Israel is looking for a Threat Hunting & Response Senior Analyst

The Threat Hunting and Response Senior Analyst will be an integral part of the Novartis Cyber Security Operations Center (CSOC). The CSOC is an advanced global team passionate about the active defense against the most sophisticated cyber threats and attacks. The Threat Hunting and Response Senior Analyst will leverage a variety of tools and resources to proactively detect, investigate, and mitigate emerging and persistent threats impacting Novartis' networks, systems, users, and applications. This role will involve coordination and communication with technical and nontechnical teams, including security leadership and business stakeholders. As an experienced skilled analyst, this role will also involve coaching and mentoring of more junior analysts.

Your responsibilities will include but not limited to:

- Effectively investigate to identify root cause, including attack vector, exploitation, and other techniques utilized to bypass security controls
- Accurately diagnose impact, damage, and mitigation techniques needed to restore business operations and minimize reoccurrence
- Identify technology and process gaps that affect CSOC services; develop solutions and make recommendations for continuous improvement
- Provide oversight and support for first level monitoring and triage to ensure effective operations and mitigation of lower impact incidents
- Good cultural orientation and strong influencer of information risk management, information security, IT security, to be embedded across IT, OT and Medical Technologies

15 Petabyte of data hosted, 49 countries supported, 15000 servers and thousands of devices to connect locations and businesses.

Information is clearly one of Novartis' most valuable asset.

In ISRM (Information Security and Risk Management), we implement and maintain solutions that secure the Novartis environment, protect our data and provide the necessary control framework to enable compliance with the various regulations associated with the healthcare industry.

105,000 outstanding individuals work with Novartis all with different needs and aspirations. Aligned to a single inspirational purpose to reimagine medicine for millions of patients across the world.

Join us and directly contribute to Novartis' vision to Reimagine Medicine.

### **Minimum Requirements**

What will you bring to the role?

## EDUCATION

- Essential: University working and thinking level, degree in business/technical/scientific area or comparable education/experience
- Desirable: Professional information security certification, such as CISSP, CISM or ISO 27001 auditor / practitioner is preferred. Professional (information system) risk or audit certification such as CIA, CISA or CRISC is preferred.

## Experience required:

- 6+ years of experience in Incident Response / Computer Forensics / CSOC team / Threat Hunting or related fields
- Experienced IT administration with broad and in-depth technical, analytical and conceptual skills
- Experience in reporting to and communicating with senior level management (with and without IT background, with and without in depth risk management background) on incident response topics
- Excellent written and verbal communication and presentation skills; interpersonal and collaborative skills; and the ability to communicate information risk-related and incident response concepts to technical as well as nontechnical audiences
- Excellent understanding and knowledge of general IT infrastructure technology and systems
- Proven experience to initiate and manage projects that will affect CSOC services and technologies
