Job Description

Novartis continues to accelerate its growth in the digital world. As part of our continued growth we're hiring a Senior Director Data Engagement within our Data & AI Customer & Technology Solutions team.

In this role you'll be the 'master' engagement leader for all data related efforts and programs. Our Senior Director Data Engagement will manage a team of Program Managers who would partner with Enterprise Data Owners to support their data programs and progress toward achievements at Enterprise level.

You'll act as the translator of business requirements to Data demand and be a key interface and partner not only to domains or Enterprise Data Owners, but also to the world outside.

If you're passionate about the seamless coordination and implementation of Enterprise level Data Strategies across multiple verticals within an innovative environment, then apply today!

Your Responsibilities include but are not limited to:

- Coordinating with Engagement Leads to always maintain a one enterprise data progress. Serving as the lynchpin of organisational progress regarding data
- Supporting the Head of Data Management with clear tactical action points at any given point
- Building leadership and supporting other teams with key solution requirements and opportunity areas
- Ensuring execution of strategic plans are completed and reported effectively
- Partnering with the strategic program team to ensure effective impact
- Reporting progress on Master Data to all senior leadership partners

Diversity & Inclusion / EEO

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Minimum Requirements

What You'll Need:

- Masters in a quantitative discipline, e.g. Applied Mathematics, Computer Science, bioinformatics, epidemiology and Statistics or another relevant field
- Deep leadership experience in a sophisticated Program Management role
- Experience working in technology, data and analytics teams

- Strong financial management background. Should have managed budgets, financial forecasting, economic modeling, fiscal controls.
- Strong leadership, time management, coordination & facilitation, and organizational skills
- Working knowledge of change management principles and performance evaluation processes
- Proficiency in English (oral & written)

Nice to Have:

- Ph.D. in (e.g. Applied Mathematics, Computer Science, bioinformatics, epidemiology and Statistics highly preferred
- Leadership experience with large multi-functional, cross country teams preferred

Why consider Novartis?

769 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

Imagine what you could do at Novartis!

Commitment to Diversity & Inclusion:

Novartis embraces diversity, equal opportunity and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration, and empowers our people to unleash their full potential.
