France

### **Job Description**

20 is the number of our current clinical studies in Hematology in France, 6 are early phases. As Therapeutic Area Head – Hematology, you will play a vital part in providing patients in France with high-quality medicine and contribute towards our overall goal of extending and improving people’s lives. Apply now to become a part of our innovative, dynamic team!

#### **Your Responsibilities:**

**AS TA Head Hematology, reporting to the Medical Oncology Head, your responsibilities include, but are not limited to:**

- **Leading scientific engagement with medical experts, implement clinical and educational strategies and respond to unsolicited medical enquiries**
- **Managing field medical activities in collaboration with cross-functional teams as well as mentoring other field medical associates ;**
- **Leading, coaching, and developing a highly dedicated team of Medical Advisors and MSLs**
- **Full responsibility for the medical budget and ensuring appropriate identification and mapping of medical experts - Supporting the Novartis clinical research programs as well as optimization of trial execution**
- **Proactive contribution to the development and execution of the medical strategy and tactical plans, including collecting, analyzing, and reporting impactful insights from MEs**
- **Providing scientific educational support to study sites in collaboration with clinical operations and expert disease area/product training**
- **Acting as a medical resource to field colleagues and actively coach and mentor others**

### **Minimum Requirements**

**What you'll bring to the role:**

- **Excellent communication skills combined with a curious personality**
- **Motivated teamplayer with proven ability to prioritize**
- **Proactive and team-player approach for managing effective international and cross-divisional/matrix collaboration.**
- **Leadership and proven planning and management skills; process excellence**
- **Fluency in English, French preferred but not mandatory**

**Desirable requirements:**

- **Physician, Pharmacist or PhD in a life science related subject (e.g. chemistry, biology)**
- **Extensive and relevant experience in pharmaceutical industry of at least 8 years**

**You'll receive:**

- **Salary range : 100 000€ - 150 000€**
- **An annual bonus**
- **A focus on your career development**
- **Access to our Quality of Life at work program**
- **Flexible working**
- **Advanced social coverage for you and your loved ones**
- **27 days of paid leave & 14 days of RTT per year**
- **Various employee recognition programs**

**Why consider Novartis?**

769 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

**Imagine what you could do at Novartis!**

**in 2021 Novartis has been certified as a "Top Employer" in France**

**Commitment to Diversity & Inclusion:**

**Novartis embraces diversity, equal opportunity and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration, and empowers our people to unleash their full potential.**
