### **Job Description**

105,000 people re-imagining medicine for more than 750 million people globally! As part of the team this role is critical in providing our key stakeholders with accurate & on-time information with insightful recommendations to identify new market opportunities.

Your responsibilities include, but not limited:

- Ownership of secondary research area: partnering with internal customers to agree on market definitions. Owner of secondary market data base maintenance, market definitions up to date according to global guidelines, updated geographical structure based on FF deployment, report structure and design
- Identifies current business need in secondary data reporting. Updates current reports and creates new according to the business need
- Responsible for planning and execution of secondary research calendar of activities. Actively generates reports and provide with general market comments on a monthly basis according to a pre-defined calendar. Also generate reports on a National, Regional and Territory level, by Brands and CPO levels
- Owner of Secondary Data Portfolio
- Responsible for investigating new data sources, data validation and implementation into the current reporting system
- Performs different ad-hoc analyses on demand of internal customers

### **Minimum Requirements**

What you'll bring to the role:

- University degree in Sciences (Economics, Finance, Statistics)
- At least 2 years working experience in pharmaceutical market analysis
- Strong quantitative and analytical skills
- Advanced knowledge of Excel skills to process large database
- Customer and team oriented.

What we offer for you:

Competitive salary and annual bonus level, medical insurance (for the employee and children, additional discount given for close relatives), life insurance, meal allowance, mobile compensation, flexible working hours, internal and external educational courses and trainings, 3 additional days of paid vacation, professional and career development opportunities (locally as well as worldwide).

Why consider Novartis?

799 million. That's how many lives our products touched. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks. And where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

We are Novartis. Join us and help reimagine medicine.
