Job Description

26000+! That's how many employees at Sandoz worldwide. We are a division of the Novartis Group and a global leader in generic and biosimilar medicines, committed to playing a leading role in driving access to high-quality and affordable medicine worldwide. Join us and pioneer access for more patients!

Your Key Responsibilities:

Your responsibilities include, but not limited to:

- The Medical Science Liaison (MSL) serves to advance science and standards of care for patients, healthcare providers and payers, and ensure they can access all the practical and clinically relevant information and solutions they need to use Sandoz's products efficiently and safely.

- MSLs are responsible for developing and implementing customer facing medical strategies and have a primary liaison role to the medical and scientific community.

MSLs are responsible for engaging Customers, including HCPs, in non-promotional medical and scientific discussions regarding all on-market and in-development Sandoz products, including those that have been licensed, or on topics relating to disease states.

- Communicate and inform on complex scientific and medical information on disease areas in which Sandoz is involved, and on our products; to support the safe, effective and appropriate use of Sandoz medicines.
- Participate in the selection process to identify appropriately qualified experts the Company would wish to engage in collaborative efforts to ensuring a high level of scientific or educational integrity in these collaborative efforts.
- Develop professional and credible medical/scientific relationships with customers (Healthcare Professionals, Payers, and the like) and external experts of strategic importance to Sandoz.
- Serve as a point of contact within the Medical Affairs team for external experts in order to provide and discuss scientific information and data regarding Sandoz products to healthcare professionals to ensure quality and accuracy of key medical and scientific information by face-to-face visits scientific communications.
- May function as the Sandoz medical speaker to present at Sandoz/Society sponsored activities for up-to-date data based scientific and clinical information on Sandoz product(s) to deliver credible presentations on scientific matters to physicians, individually or in groups (meetings, clinical sessions, etc.), where requested - with the focus on key external experts.

Minimum Requirements

What you'll bring to the role:

- Experience in developing and maintaining expert knowledge for the assigned therapeutic area, and in medical research in general
- Solid knowledge of the pharmaceutical environment and the role of Medical Affairs to advance the medical and scientific objectives of a pharmaceutical company.
- Demonstrated expertise in the scientific methods applied to clinical research and current legislative/regulatory controls applicable to this research

- Ability to comprehensively learn about new subject areas and environments.
- Excellent written and spoken communication and presentation skills, with a demon

Why consider Sandoz?

Our number 1 priority is to pioneer patient access to better healthcare. We are a company of firsts. 1st to develop an oral penicillin antibiotic. 1st to develop and launch biosimilars. 1st to launch an FDA-cleared digital therapeutic. And we never stop asking: how can we continue to pioneer access in an ever-more digital and global world?

The answers come when curious, courageous and collaborative people are empowered to ask new questions, make bold decisions and take smart risks.

Sandoz, a Novartis division, is a leader in generic and biosimilar medicines and a pioneer in digital therapeutics.

Imagine what you could do at Sandoz!

Commitment to Diversity & Inclusion:

Sandoz, a Novartis company, embraces diversity, equal opportunity and inclusion. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration, and empowers our people to unleash their full potential.
