Job Description

799 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

Imagine what you could do at Novartis!

The role will participate in the evaluation and assessment of key opportunities for the US market and well as helping define a mid to long term strategy for external growth taking into consideration external factors. This includes participating with the development of business cases with the help of a multidisciplinary group.

Key Deliverables: Deep dive on the current status of NPC vs our peers (including value of US footprint) and utilizing strategy work make recommendation on the opportunities for external growth

Business Impact: To assist in shaping the forward external growth strategy for the US Pharma business
