

The Basel Traineeship Program is a paid internship with rolling admissions. Placement is in a variety of laboratory settings for 3-12 months. The intern's research may focus on therapeutic areas, discovery technologies, molecular pathway investigation, discovery chemistry or models.

To apply:

Along with your resume, please include a cover letter specifying your areas of interest, relevant completed coursework and describe any past research or laboratory experience. Since the Basel program has rolling admissions, we welcome you to come back and check the database periodically if there are currently no openings.

For more details and to search available openings, select Switzerland from the list of search criteria in the Country field and choose Internship as Employment Type.
