Job Description

18 million Chinese patients benefit from Novartis products!

- Organizes the initiation and completion of his/her assigned safety tests in conjunction with the CDU project plan and provides safety advice to CDU staff as appropriate.
- Optimally organizes his/her assigned workload to support the CDU project plans. Carries out the assigned safety tests in a professional manner.
- Actively contributes to keeping the lab equipment properly maintained and the lab clean.
- Reports the findings of the safety tests promptly and in an organized way.
- Provides safety advice to CDU personnel. Provides process improvement suggestions to CDU scientists as appropriate
- Understands how the Safety Lab equipment functions and the safety principles they are investigating.
- Reviews safety test results, suggests alternatives, and is a contributor during the process risk assessment (e.g. DERA) meetings as appropriate.
- Various responsibilities in accordance to GMP & HSE responsibility lists of the LSC.

Diversity & Inclusion / EEO

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Minimum Requirements

-
- 2~5

Why consider Novartis?

799 million. That's how many lives our products touched in 2019. And while we're proud of that fact, in this world of digital and technological transformation, we must also ask ourselves this: how can we continue to improve and extend even more people's lives?

We believe the answers are found when curious, courageous and collaborative people like you are brought together in an inspiring environment. Where you're given opportunities to explore the power of digital and data. Where you're empowered to risk failure by taking smart risks, and where you're surrounded by people who share your determination to tackle the world's toughest medical challenges.

Imagine what you could do at Novartis!
