Novartis and Microsoft announce collaboration to transform medicine with artificial intelligence [1]

Publish Date: 01 October 2019 16:00 CEST

On Tuesday September 1, 2019 Novartis and Microsoft announced a multiyear alliance which will leverage data & Artificial Intelligence (AI) to transform how medicines are discovered, developed and commercialized. Novartis is also establishing an AI Innovation Lab to empower associates to use AI across our business.

Novartis Media Release [2]

Microsoft Blog [3]

Novartis CEO Vas Narasimhan and Microsoft CEO Satya Nadella spoke about the partnership in video messages

[4]

We know that data science and digital technology will play a pivotal role in the future of medicine. That's why I'm extremely excited to share today that @Novartis will be creating an AI innovation lab with @Microsoft. This AI innovation lab will be our go-to place to innovate, experiment and scale AI-based solutions in our efforts to

transform the way we discover and
develop medicines for the world.
