Cancerale si tulburarile hematologice afecteaza una sau mai multe componente ale sangelui, cum ar fi eritrocitele, trombocitele, leucocitele sau plasma. In anul 2019, 154 000 de persoane din intreaga Europa si-au pierdut viata din cauza cancerelor hematologice. [Citeste aici \(PDF 1.3 MB\)](#) mai multe despre contributia noastra in domeniul afectiunilor hematologice. Pentru ca ne pasa si nu ne vom opri niciodata!
