

Materiality Assessment 2021 Kickoff Webinar

Dialogue matters – support us to spur positive impact February 8, 2021

Agenda

Welcome

Duration: 1 hour

At any time, we invite you to **type your questions** in the Q&A box

If you are struggling to connect:

- Audio is typically more reliable over a telephone/ mobile line than computer audio
- Close other applications not in use, especially those that take bandwidth
 (e.g. email and additional internet browser tabs)
- Connect to the internet via cable rather than wireless, if possible

Novartis

Agenda

Welcome Why it's important? What have we achieved? Where are we heading? We would like to hear from you Open Q&A

Agenda

Why it's important?

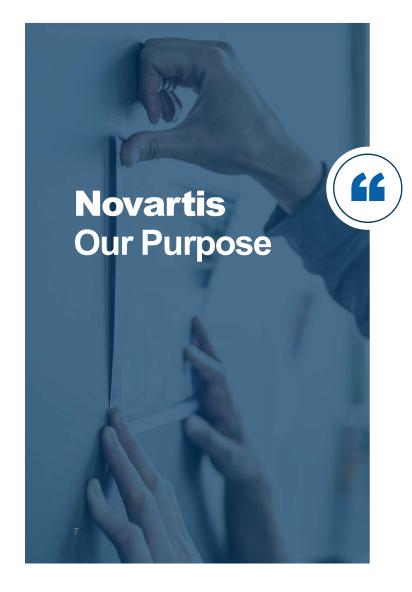

What have we achieved?

Where are we heading?

We would like to hear from you

Open Q&A

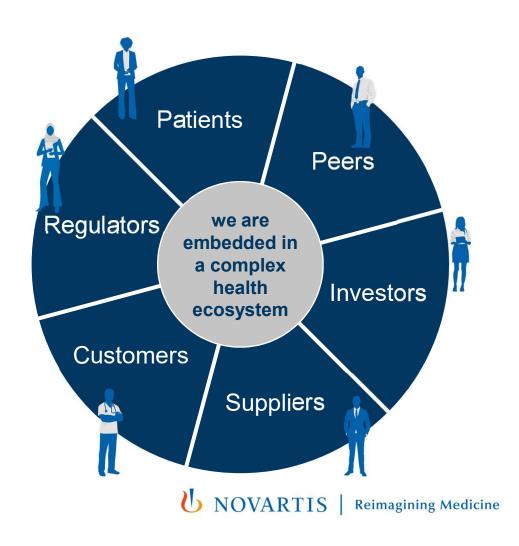

Our purpose is to reimagine medicine to improve and extend people's lives. We use innovative science and technology to address some of society's most challenging healthcare issues.

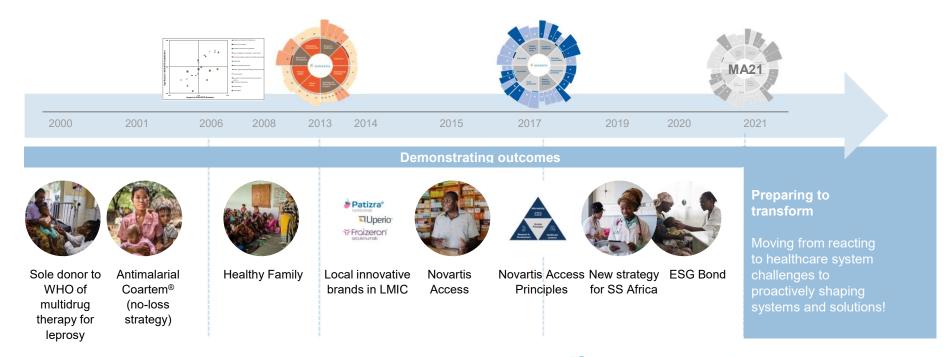

We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible.

We also aim to reward those who invest their money, time and ideas in our company."

Listening to our stakeholders to understand what matters most for our mission

Materiality Assessments at Novartis have shaped our approach

Stakeholder input from the materiality assessment informs our core actions

MA results will inform:

- Divisional & Functional Processes
- Enterprise Risk Management
- Annual Corporate Strategy Review

Ownership:

- Novartis Executive Committee
- Board of Directors

Agenda

Welcome

Why it's important?

What have we achieved?

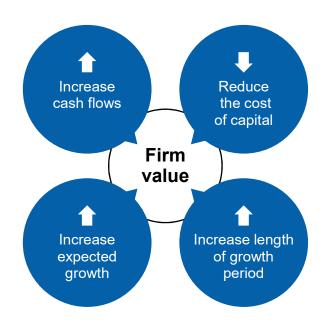

Where are we heading?

We would like to hear from you

Open Q&A

How can a healthcare company increase its value?

Source: Aswath Damodaran: Value Enhancements: Back to Basics, Vontobel Equity Research

Novartis share price dependent on:

- 1 Driving top line excellence in launches
- 2 Driving bottom line operational excellence
- 3 Pipeline delivering on innovation
- 4 ESG

ESG principles in Novartis

- Materiality Analyses
- 2 ESG needs to be integrated into functions e.g. sustainability bond
- 3 Great ESG scores are not the direct objective

Consensus

Materiality Analyses are fundamental to determining relevance of ESG factors

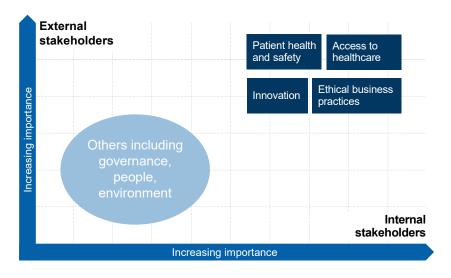

(e.g. company, or investment decision)

Novartis also uses Materiality Analyses for this

Key first step to defining the ESG strategy

Most relevant ESG factors

ESG pillars

1. Interactions with 200+ stakeholders from academia, fin. markets, governments, healthcare providers, NGOs. Materiality assessment webinar series: https://www.novartis.com/investors/environmental-social-and-governments/

But materiality...

Is about answering what the purpose is of using ESG data

Depends on stakeholder (IR world, asset manager, investor, hedge fund, pension fund)

Depends on geography

Changes with time

... which explains why materiality is the most and least consensual term in ESG investing

Any fact, describing an asset, that helps you decide whether or not you should invest in this asset¹ Relevance of a sustainability factor to a company's financial performance³

Information that is important, relevant and critical to long-term value creation²

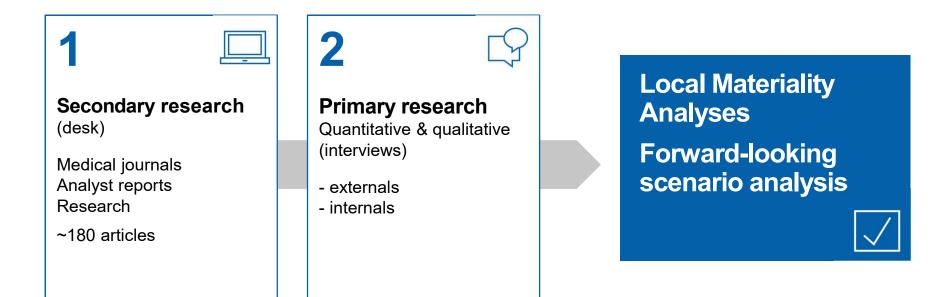

Pose direct financial risks, may be regulated, drive best practices, raised by stakeholders, opportunities for innovation / growth⁴

^{1.} JPMorgan research March 2020: What Happened to ESG, Hecker et al 2. WEF Measuring stakeholder capitalism September 2020 3. <a href="https://www.robeco.com/en/key-strengths/sustainable-sustainable

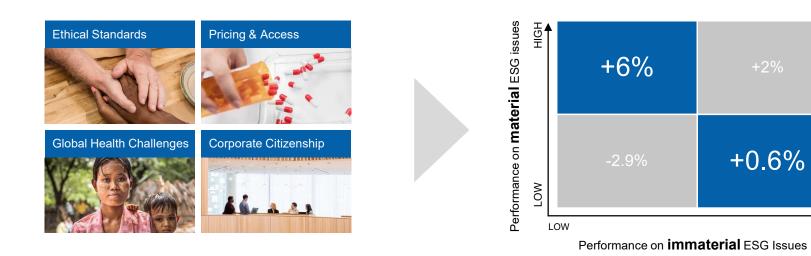

Robust methodology is important

Novartis approach: varied inputs from stakeholders, geography, time-relevant

It's not ESG per se, but the focus on material ESG issues that is correlated to improved share price

^{1.} Serafeim, George et al. (2015): Corporate Sustainability. First evidence on materiality. HBS Working Paper 15-073. Other sources: Cheng, loannou and Serafeim (2014); Dhaliwal et. al (2011); Dhaliwal et. al (2012); Grewal, Riedl and Serafeim (2017); Khan, Yoon and Serafeim (2016); Grewal, Hauptman and Serafeim (2017).

First sustainability-linked bond in the industry

An open accountability to our ESG commitments

"Driving purpose, stakeholder value; happens when at center of systems, integrated, targets mandatory & conditional"

"Creating symbiotic innovation ecosystem requires new methods, metrics, and indicators"

Mariana Mazzucato

Novartis Sustainability linked bond

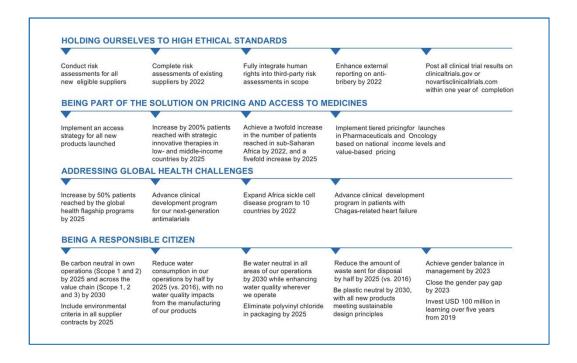

Treasury issued (ESG) linked bond

- Materiality Analyses
 bases of Targets
 (access/patients reached with medicines)
- 2 **Conditional** Step up
- 3 Mandatory Targets included in CEO balanced scorecard
- 4 **Symbiotic**Bond buyers partnership with company

Operationalized Materiality Analyses into strategic pillars and then into management targets
