

Ronenn Roubenoff, MD, MHS

Global Head, Translational Medicine Discovery & Profiling and Global Head, Musculoskeletal Disease Translational Medicine

Languages spoken: English, Hebrew (fluent); French (B1); German (A2)

Ronenn Roubenoff, MD, MHS, is the Global Head, Translational Medicine Discovery & Profiling and Global Head of Musculoskeletal Translational Medicine. Prior to joining Novartis in 2009 as Global Translational Medicine Head, Musculoskeletal Diseases, followed by multiple assignments within Translational Medicine in both Cambridge and Basel, Ronenn led the Translational Medicine and Early Development efforts for the Immunology Group at Biogen Idec, Inc. from 2007 through 2009. Earlier in his career, he spent four years as Senior Director of Molecular Medicine at Millennium Pharmaceuticals, and was the Director of the Nutrition, Exercise Physiology, and Sarcopenia Laboratory at the Jean Mayer USDA Human Nutrition Research Center on Aging.

Ronenn received his MD from Northwestern University, Chicago and trained in Internal Medicine and Rheumatology at Johns Hopkins School of Hygiene and Public Health, Baltimore, where he was Chief Resident of Medicine. He also received a Master of Health Science degree in Clinical Epidemiology from Hopkins.
